FIRE ALARM

In the event of a fire, the alarm will sound and the two doors on the first floor on keypads will unlock, as will the door from the children's area and the gate to the side of the building.

The responsible person is to guide all occupants in their charge out of the building through the nearest exit to the assembly point. One person should check the toilets and exit through the rear fire exit door and one member of staff through the main entrance dialling 999 as soon as safely possible.

Any disabled occupant of the building on the first floor should make their way through the first floor corridor to the refuge. The lift should not be used. In this area there is a 'Disabled Refuge' and call point – anyone located in this area will press the button to ring the handset which is located by the main entrance. The person exiting through the front door should answer this phone and reassure the person that they will be rescued as soon as possible by the Fire Brigade.

The assembly point for all occupants is the car park to the rear of the building where the responsible person should ensure that they advise the Fire Brigade of anyone left in the building, particularly in the area of the disabled refuge.

In the event of a false alarm, it will be necessary to call the number below so that the system can be reset and the heating restarted.

Please call Mrs Ann Dobbins, the Town Clerk, on 07817 097329 so that she can attend site on behalf of the Town Council, owners of the building.
